

Batch: 1 (ox) xxxx (year and month of entry into the butchering room), yyyy (consecutive annual reference).

Shelf life: 2 years from the date of freezing that appears on the label. Once defrosted, consume within 10 days.

Transport: Frozen.

Storage:
The product must be stored in a freezer at a temperature below -18°C. For consumption, defrost the product in a fridge between 0°C and 10°C, keeping in the vacuum bag to prevent it from oxidising. Do not freeze again after defrosting. To defrost part of the meat, semi-defrost the whole piece to make a clean cut of the part you want. Immediately, vacuum-pack the part that will not be used, and return it to the freezer. To use the whole piece, defrost slowly as indicated. Remove the meat from the vacuum bag and dry it well with suitable absorbent paper which will not stick to the meat. Then there are two options: to use it whole, changing the product bag every time you use it and returning it re-wrapped to the fridge, or ration it according to how you want to use it. If vacuum-packed, the product can be kept between 15 and 20 days before using. If you do not have a vacuum-packing machine and wrap the meat in cling film, it can be kept in a fridge between 5 and 7 days. For further information, do not hesitate to contact us.

CHUCK

Code: 98437017642254

Product description: Deep-frozen ox chuck

Ingredients: 100% ox meat

Contains no allergens

Treatments applied to the product: Cryogenic freezing

This comes from the forequarter and is the extension of the top loin towards the neck. It's a very tender, marbled cut of meat. The pieces are between 5 and 10 kg but we can prepare them in chunks as desired. It gives fillets that are full of fat for barbecuing or grilling. Minced, it can be used to make fabulous meatballs; it can also be prepared as carpaccio, steak tartare and even top-quality burgers.

Weight and size:

Approximate weight of piece between 5 kg and 10 kg
Dimensions: 35x33x14 cm
1 unit/bag, 2-4 bags/box

Packaging:

Transparent food-standard plastic bag 70x50 cm, 40x50 cm or 40x40 cm (bag 40 g)
Cardboard box 58x38x23.5 cm (box 525 g)
28 boxes per pallet (pallet 20 kg)

Microbiological characteristics:

LEGISLATION Regulation 2073/2005 modified by 1441/2007	RECOMMENDATION CENAN 1982	UNITS
Aerobic mesophiles	1000000	ufc/g
Total enterobacteria	100	ufc/g
Salmonella	Absent	/25g
Listeria monocytogenes before sale	Absent	/25g
Listeria monocytogenes during shelf life	100	ufc/g
Escherichia coli	10	ufc/g

Organoleptic characteristics:

Dark red colour. Firm, tender, collagenous texture. Intense flavour.

Other features:

Absence of genetically modified organisms (GMOs)
Suitable for celiacs
Not suitable for halal clients
Not suitable for kosher clients
